Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

General Status

1. This is a First Action on the Merits. Claims 1 and 2 are pending in the case.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. § 102(b) as being anticipated by Frantz et al. (US 4,960,388).

Franz et al. in figure 1-4, discloses a wiring block and cover shell arrangement comprising a wiring block, said wiring block comprising a flat base 22, two protruding engagement portions 23 located on two opposite lateral sides of said base for mounting, two smoothly arched bearing walls perpendicularly extended from a front surface of said base and equally spaced from the center of said base at two sides, two sets of parallel crevices 28 symmetrically formed in said smoothly arched bearing walls and respectively cut through the height of the smoothly arched bearing walls to a front surface of said base, and two sets of slots 34 respectively cut through the height of the smoothly arched bearing walls and front and back sides of the base across the crevices for accommodating a respective wire clamp 60 to fasten the insulated wires W of the twisted pairs of a cable.

Allowable Subject Matter

4. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. The prior art made of record and not relied upon is considered pertinent to applicant's invention. Frantz et al. (US 4,960,389), Weiss (US 5,662,492), Allgaier et al. (US 6,120,316), Hagmann (US 6,544,067), Wellmann et al. (US 6,551,144), Cieniawa et al. (US 3,980,380), Harting et al. (US 6,113,420) and Van Emmerick (US 5,464,352) all disclose connector with IDC contacts.

Applicant also should consider these references in response to this office action. Should issue arise concerning the rejection presented above, these references may be relied upon in a subsequent action to support the lack of novelty or obviousness of claimed subject matter to one of ordinary skill in the art.

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to T. C. Patel whose telephone number is (571) 272-2098. The examiner can normally be reached on 6:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynn Feild can be reached on (571) 271-2092. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
